About This Game

Dimension Drifter is a fast paced, ultra-violent action shooter.

Our timeline has collapsed and many didn't even notice. Since then, inexplicable mysteries started happening all over the world. Strange sightings of objects and beings. Crop circles appeared. Cattle mutilation. Memories that didn't reflect reality anymore. The list gets longer every day...

All of this was just the beginning. Since then, hundreds of years have passed. It all spiraled out of control. One day, strange portals to another dimension have opened and Demons poured out. An endless war began. Some cities have created plasma domes around them, protecting them from the eternal onslaught. But most now lie in ruins.

Some extraordinary people who were able to survive long enough in the ruins have harnessed special abilities. In the eye of the public, these powers are deemed evil and it is said they are of demonic nature. These special people are outcasts, not allowed to enter the Domes of safety anymore. They are called Drifters.

Features

- Super fluid action gameplay. Tight controls compared with animation cancelling actions make you feel in absolute control 100% of the time.
- Brutal Action combined with a deep Pen&Paper RPG world. The World of Dimension Drifter has been created over a period of 15 years as a Pen&Paper RPG foundation. Reveal more and more about the world as you progress through the missions.

-
- Endless levels that are randomly arranged each time you play. But robots can't design intuitive maps. As a modern mapper for the original Doom, I've added certain intelligence to the level creation to make it feel as humanly crafted as possible. Each room piece is also designed by hand to give everything you see a manmade feel.
 - Thousands of randomized progression items. Like in Diablo and other loot-oriented games, the game offers almost endless combinations of items you can find to improve your Drifter.
 - Visual character customization is also a great aspect of the game design. Choose between Male or Female Drifter and have a lot of outfits to mix and match, with tons of colors to choose for each piece. I want the Drifter to be YOUR OWN! However, during the very early Early Access time, this content may be limited to only a few options.

Title: Dimension Drifter
Genre: Action, Indie, Early Access
Developer:
BlueEagle Productions
Publisher:
Paul Schneider
Release Date: 27 Sep, 2018

a09c17d780

Minimum:

Requires a 64-bit processor and operating system

OS: Windows 10, Windows 8, Windows 7 64-bit

Processor: Quad-core Intel or AMD processor, 2.5 GHz or faster

Memory: 4 GB RAM

Graphics: NVIDIA GeForce 470 GTX / AMD Radeon 6870 HD or higher

DirectX: Version 11

Storage: 3 GB available space

Sound Card: Windows compatible

Picked this game up. It isn't perfect but it's goddamn good and the combination of hilarity, great presentation (the announcer is hilarious), and asymmetric play with the couch users is goddamn great.

The best part about it though? The HMD is a hot seat. Every player gets one chance in the HMD, and it makes sure everyone gets a brief, hilarious, and engaging time. If you have friends, and you're looking for a good time, grab this game up quick. So far the biggest surprise that has come out of my Vive for me.

Here's a clip of the hilarity we all experienced: <https://youtu.be/VCpboeL7EVIU>
[. Everything is cool - everything.. Great Game.all you need to do is Buying it.If you like the history of the Seven Kingdoms & Vikings without Undeath.Magic and Dragons.. Just played around with a buddy for an hour. Great game! Definitely gonna bust this out at parties. Felt pretty balanced for the 1v1 action I tried and win ratio was about 50/50 with each of us taking turns as the boss. Was also cool to fight from the bosses perspective. Highly recommend this game. Can't wait to see the third planned boss!](#)

[Note: I got this game for free because I had purchased the original, Nemesis Perspective. This feels much more polished and balanced. Plus the second boss is really epic to play/fight](#)

[Edit: Had some more people over today. Multiplayer action with 4 players is nuts! We kept switching off and had a couple more hours of fun. This game is a gem in my VR library!. something tells me they made this for the purpose of getting gear crates for the next expansion good on you neocore you're doing good and doing the Emperor's work in giving us a DLC that helps players out for next expansion!. Honestly, I love the basic game, but the DLC feels like a "forced" extended campaign \(I expected more insight after the ending instead\) and the balance of the new level 4 items is OFF entirely, they all have 1 charge per mission, which kills the rewarding feeling you should have by obtaining them. Last but not least, level 3 items felt powerful but they become really rare due to this DLC. I find myself preferring the old basic game rather than this](#)

soooo good, just beautiful, everything about this game just makes me happy!. Great game for the price! It's simple family fun. Just time your dropped monster with the power gauge to make sure you make a big impact! One thing I really like about this game is the option for an AI so you can play on your own if you can't find someone to play with you. I hate buying a game only to find out you have to wait for someone to join your game. The graphics are super cute and it's fairly fast to learn. Even without instructions, I was able to figure the game out after playing a few times. This game makes a nice break after doing some chores! Perfect for friends or family! My honest opinion: Buy the game! It's only \$4! Perfect for value! I didn't get a discount or money for this review.

PROS;

Cute graphics

Fun for family and friends

Option for AI player or play with family/friends

GOOD VALUE for money

CONS:

Needs explanation for CONTROLS and HOW TO PLAY

No Hard difficulty?

CONTROLS

S gives you the option of a special character (on bottom left-usually a whale or a yellow monster)

use your arrow keys on keyboard to move your monster (use the shadow to see where it will fall)

Press Space to drop your character

Pay attention to the power gauge on bottom right

Dropping your monster on barrel bombs helps knock other monsters out

Goal:Knock the other monsters out of the ring!

Make sure not to knock your own character out of the ring if you want points!

FUTURE IMPROVEMENTS

Developer needs to add controls and how to play.

I would like the option for less rounds (5 as a minimum instead of 10).

Add a hard difficulty (honestly just by adjusting the bounciness of the creatures to 10 would do the trick).

It is confusing who is who at the top of the page because the numbers change according to your points so one moment I was player 1 then suddenly player 3 before I realized those were points not the player. I think there should be a player image up there (you could have player 1 be a cat for example, player 2 whale, player 3 the yellow monster, player 4 a barrel bomb) or give players the option to choose.

IDEAS

In the future, I would love to see more places added to play like a pirate ship or rainforest for example so maybe 5 options total. And new challenges like bombs dropping and floors falling out. Or mini-games like playing tic tac toe by dropping monsters. or paint a room by dropping monsters who splatter paint ect. It'd be cool if you could choose your character at the top of the screen to make it easier to tell which player you are. And there could be a few more types of monsters or getting to choose what color your monsters are. I think with just a few more features added (like 3 mini-games) this game price could easily go up in value by a few dollars. I would say with a few improvements \$7 would be good. You could have DLCs for things like 5 mini-games for \$5 or extra characters DLC for \$4 if you want to keep the base game the same price but still want people willing to pay extra for mini-games and extra features happy.

OVERALL: FOR SUCH A LOW PRICE, I WOULD BUY THIS GAME AGAIN!. Very nice loco, only things that I wish it had is generator steam effect and footplate crew. If you have BR52 though, there is a modified cfg hanging somewhere on german forums that lets you put its crew on this engine. The loco is kind of realistic to drive and well made. Has a lot of little, unnoticeable details, like reverser gear moving outside the loco when you work it.

Two passenger scenarios are very nice, but I think the freight one is simply unfair. (Mind that I've been playing in realistic mode with pzb on). Very hard to keep up with the timetable, pretty much impossible.

I CAN'T RECOMMEND THIS DLC BECAUSE you'll probably be better off buying the Wutachtalbahnhof instead, since it usually has a similar price and provides the same content as this, plus passenger coaches and...well...a route (although kinda lazily-made and with more unfair scenarios). So, Get it only if it's much, much cheaper than Wutachtalbahnhof and if you're not

interested in getting DR coaches and a heritage route.

. I really do like this game, but it's basically Mega Man 1's Gameboy port as a fanhack to make it slightly harder.

- Sprites are too big
- Can't see very far ahead (Gameplay area is about the dimensions of a Gameboy screen)
- Enemies shoot you from off screen (You can shoot them when they spawn just offscreen too, but only after you memorize their locations)
- Constant near-death jumps by spikes and double-jump points next to pits
- Weird double-jump/swim mechanic when hopping on the surface of water like a ninja
- Good soundtrack (I've only listened to the remix version admittedly)

So it boils down to another indie game that remembers the NES/Gameboy days for the difficulty and hardware limitations first and the fun second. Because of that I can't recommend it to anyone.. Story was fun, really enjoyed it but gameplay was terrible. It was so bad that i couldn't play it any longer than this. Moving around was buggy, spell tree was small, sometimes even if i read the quest description i didn't have any clue what i'm supposed to do and where, fighting was weird very "indie" like, they surely didn't put lots of money and time to make this game.

I could recommend this only to people that likes RPGs with funny storyline and interesting characters and doesn't mind small gameplay issues. 4/10. This game would have been fun except for the awful controls and the lack of control customisation. When I can get over the jankiness of the controls I can enjoy it but I'm always thinking how it could be better if i could remap the keybinds. Might be better with a console controller but for PC users I wouldn't recommend it. On a sidenote I enjoyed the different perspective on WWII the story took.
